

INSTRUCTIONS

This is a fairly easy show to set up. But if you haven't set up a show before I know it can feel a little daunting. So here is some info to help you out.

PRINTING

I used Fedex Office to print out the images at 36 inches by 48 inches. I'm told you can do this Staples or any other large format corporate printer.

You want them to print on paper that is used for blueprints. It's called **bond paper**. It's very lightweight and fairly inexpensive.

At Fedex Office, they print in black and white for around 87 cents a square foot. That makes each one of these prints around \$9... and you have 12 stations plus the description... so that makes printing out this show a cost of around \$120.

You can always print the show smaller if you like. I have formatted all these images to print out at 36"x48" at the largest... and anything smaller is possible.

WHEAT PASTE

Wheat paste can seem daunting at first but it's actually fairly easy.

First of all.... NEVER experiment on the final products. When you make up your wheat paste batch, try it on some scrap paper. Don't go your first round on the final images.

I watched this video of Sheperd Fairey walking through his whole process of putting art up. I found it extremely helpful when wheat pasting myself:

<http://www.youtube.com/watch?v=DJfeAvP8xTo>

Here's a good video of what it looks like to make a batch of wheat paste:

http://www.youtube.com/watch?v=X3r_KtUZRtI

And here's the site I used to make up my own batch:

<http://destructables.org/destructable/wheatpaste-recipe-putting-postersbillboard-alterations>

Step 8 is what I used. I made two large batches and that was just about enough for putting up 12 posters. So you might need a bit more.

If you want to bypass the hassle of making all this though.... You can buy an all natural wheat paste:

<https://www.amazon.com/RUST-OLEUM-62008-Suregrip-Adhesive-8Oz/dp/B00176UX4Y/>

[ref=redir_mobile_desktop?](https://www.amazon.com/RUST-OLEUM-62008-Suregrip-Adhesive-8Oz/dp/B00176UX4Y/?ref=redir_mobile_desktop?_encoding=UTF8&keywords=wallpaper%20paste&pi=AC_SX236_SY340_QL65&qid=1488148531&ref_=mp_s_a_1_10&sr=8-10)

[_encoding=UTF8&keywords=wallpaper%20paste&pi=AC_SX236_SY340_QL65&qid=1488148531&ref_=mp_s_a_1_10&sr=8-10](https://www.amazon.com/RUST-OLEUM-62008-Suregrip-Adhesive-8Oz/dp/B00176UX4Y/?ref=redir_mobile_desktop?_encoding=UTF8&keywords=wallpaper%20paste&pi=AC_SX236_SY340_QL65&qid=1488148531&ref_=mp_s_a_1_10&sr=8-10)

I bought this at my local paint and wallpaper store. worked so well! better than the homemade stuff.

HANGING THE SHOW

So there are an infinite amount of ways you can hang this show. I proposed you wheat paste it to the side of your building. So there is that.

But if you would like to hang it on the inside of your building.... go for it! You can wheat paste these images to wood or some kind of board. Or even use push pins to hang them up. However you want to use it in your space is up to you.

You can click the link below or look up the hashtag #stationsinthestreet on instagram to see how others have hung up the show.
